Eligibility Verification Patient Demographics Entry Medical Coding & Coding Audits Charge Entry & Charge Audits Claims Submission Payment Posting A/R & Denial Management Clinical Documentation Improvement

# **Urgent Care** *Coding*

Our urgent care coding team reviews medical records, categorizes based on the level of services rendered by the physician and determines the correct code, while remaining compliant with regulatory agencies. Although most payers reimburse based on the flat-rate method, we understand that some payers reimburse on the service level rendered. Our coders are adept at coding for Level I (triage), Level II (intermediate) and Level III (complex care).

#### Level I / Triage (Minor Issues)

When patients only get evaluation and management (E&M) services without diagnostic testing.

#### **Level II / Intermediate (Moderate Issues)**

When injections, vaccines or splinting are administered along with E&M services.

#### Level III / Complex Care (Severe Issues)

When IV infusion, sutures and E&M services are administered.

### Why 3Gen?

- Extensive Knowledge: Our urgent care medical billers have the knowledge required and deep-domain expertise to perform billing services accurately and within a quick turnaround time to ensure you get the reimbursement you deserve.
- Experienced Resources: We provide you
  with a dedicated and experienced team of
  urgent care billers and coders, who work as an
  extension of your team, to tackle your
  reimbursement challenges.
- Performance Driven Approach: We consistently improve operations through analytics, which assists organizations in reducing denials, lowering cost to collect, improving cash flow and in turn keeping healthy KPIs.
- Customer Success: Our goal is simple to be a partner in our customer's growth.

Our team works as an extension of your organization, aligns with your culture and delivers the best results!
