charts/month

# Our *Services*

**With our medical billing services, our clients are able to save up to 52% of overall expenses!**

# **Pediatric *Billing***

Every step is important, which means that unfortunately there are also many chances for pediatric billing and coding errors to occur during the process. These errors can result in claim rejections or denials and can also increase a provider's compliance risk. Based on our experience, we have identified the below reasons as some of the most common errors. It's important to note that these errors are in fact preventable and can result in significant reimbursement improvement if the pediatric billing process is corrected to avoid denials.

**1** Incomplete Patient Information

**2** No Prior Authorization

**3** Inaccurate Pediatric Coding

**4** Insurance information

**5** Use Of Wrong Modifiers

**6** Vaccine Billing Is Overlooked

# **Sub-Specialty** *Experience*
